

Introducing Winnebago's Industry's Leading All-Electric Zero Emission Commercial Vehicle powered by XOS

Available on 33' and 38' commercial platforms, this 100% Electric Vehicle from Winnebago is powered by an industry leading XOS chassis. These EVs qualify for many federal, state and local incentives. The commercial structure makes it ideal for many different applications including:

- ⚡ Mobile Medical Clinics
- ⚡ Mobile Dental Clinics
- ⚡ Bloodmobiles
- ⚡ Bookmobiles
- ⚡ Mobile Offices
- ⚡ Mobile Classrooms
- ⚡ Mobile Outreach
- ⚡ And so much more!

Commercial Structure for Commercial Use

Winnebago's commercial shells are built to a higher standard that will stand up to the daily use case of a mobile application in all for seasons. Here are just some of the enhanced features that allow our vehicles to do what others can't.

- ⚡ Superstructure Construction
- ⚡ Laser-Cut Tubing
- ⚡ Interlocking Joints
- ⚡ Thermo-Panel Sidewalls
- ⚡ E-Coating
- ⚡ 1/8" Wood Flooring
